Please take time to write a brief letter of recommendation on behalf of your child. Despite the fact that you are clearly bias, you know your son or daughter better than anyone else. You know their strengths, interests, successes, struggles, areas of growth, passions and character. Please help me understand the context through which your student has built their academic record. Basically, tell me what I might not know. Your insights can greatly help me to better demonstrate why they will be successful in college and how they will contribute to the campus culture.

Please attach this letter of recommendation to this student packet.
